S.E.R.V.E. CONFERENCE

A fresh encounter with some back-to-basics Kingdom support material and tools to develop leaders to make a difference towards their journey of leadership excellence

We face a global leadership crisis.

The issues of the day are not being solved but, in fact, are escalating and matatsizing almost out of control. The challenges worldwide are increasing everyday whether it is terrorists indiscriminately killing and cutting people's heads off, the greed and corruption in the marketplace, the self-centered and self-serving politics, or the plight of poverty, the challenges faced by billions of people are increasing. Our leadership training and development are not yielding well prepared leaders nor is our process growing leaders at a pace to meet the global needs and opportunities. Our influence is waning.
